

SIDHARTH KUMAR

Kanpur, India | +91 8546012110 | sskumar20sign@gmail.com | linkedin.com/in/sidharth-kumar-059269294

SUMMARY

Full-stack developer with hands-on production experience building and shipping full-stack features end to end using Node.js, JavaScript, REST APIs, and relational and NoSQL databases including PostgreSQL, MySQL, and MongoDB. Solved 700+ data structures and algorithms problems and led development initiatives as Chief Programmer of a college coding society.

EXPERIENCE

Web Developer | Booksopedia (Freelance) | Remote | Jan 2025 - Apr 2025

- Built and shipped full-stack bookstore features end to end using JavaScript and Node.js
- Designed and integrated REST APIs to connect frontend and backend services
- Deployed and monitored production services on Render, improving uptime and load performance by an estimated 20%
- Debugged and resolved performance issues across the stack, improving overall user experience

Android Development Intern | Google for Developers | Remote | Jul 2024 - Sep 2024

- Built Android applications with modern UI design and third-party API integrations
- Applied Android development best practices across 5+ hands-on production projects
- Completed a structured technical training curriculum through the Google for Developers Android Development Program

Content Creator & Video Editor | BookswithAarika (Freelance) | Remote | Nov 2025 - Present

- Produced and edited promotional video content for social media campaigns
- Increased audience engagement by an estimated 15% through visual storytelling and content strategy

Virtual Intern | ServiceNow x AICTE x SmartBridge | Remote | May 2026

- Completed structured training in ServiceNow Administration, Flow Designer, Reporting, and Agentic AI
- Gained hands-on exposure to workflow automation and platform fundamentals

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Axis Institute of Technology and Management (AKTU, Lucknow) | Expected 2027

GPA: 3.52/4.0 (converted from 88%)

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming

SKILLS

Programming Languages: Java, Python, JavaScript, C, Dart

Frameworks: Node.js, Express.js, Flutter

Tools: Git, GitHub, REST APIs

Databases: PostgreSQL, MySQL, MongoDB, Firebase Realtime Database

Cloud Platforms: Render, Firebase Hosting

PROJECTS

SpeakSync - AI Communication Trainer (JavaScript, Node.js, REST APIs)

- Built a real-time speech analytics platform delivering AI-generated feedback with WPM tracking and progress scoring
 - Delivered personalized improvement suggestions through integrated AI feedback logic
- GitHub: github.com/SSKumar-21

Story Game - Interactive Branching Story Web App (JavaScript, HTML, CSS)

- Built a browser-based interactive story game with branching narrative paths driven by user choices
- Structured game logic and UI state entirely in vanilla JavaScript without a framework

GitHub: github.com/SSKumar-21/Story-Game

Guardian Angel - Women Safety App & Website (Flutter, Firebase)

- Built a real-time safety platform with live location tracking, SOS alerts, and emergency contact sharing
- Implemented secure authentication and cloud-based data storage using Firebase

GitHub: github.com/SSKumar-21

Student Management API (Node.js, Express.js, MySQL/MongoDB)

- Designed and built a RESTful API supporting full CRUD functionality for student records
- Implemented structured database integration for efficient data handling

GitHub: github.com/SSKumar-21

CERTIFICATIONS

Google for Developers - Android Development Program (2024)

Web Development - Sololearn (Jan 2025)

Introduction to Python - Sololearn (Feb 2025)

SQL (Basic) - HackerRank

Data Analytics with Python - FreeCodeCamp

Deloitte Data Analytics Job Simulation - Forage (2026)

Deloitte Cyber Security Job Simulation - Forage (2026)

ServiceNow Virtual Internship Program - AICTE x SmartBridge x ServiceNow (2026)
